

I believe that Barbara Anne died of a heart attack as did many of her children. Since the Mowats tended to live to a ripe old age, Porter and Barbara Anne's children must have inherited their heart problems from their mother.

When a death was reported in the newspaper, heart attacks were not mentioned but we may assume that when a healthy person died suddenly, it was very likely to have been because of a heart attack.

- 1) Bertha died suddenly at 67;
- 2) Jack died at 68 after a long unspecified illness;
- 3) Sade died at 49 of TB;
- 4) Emma died at 64 suddenly;
- 5) Etta died at 68 – I have heard she had a brain tumor
- 6 ) Gussie died at 75;
- 7) Alice died at 68 suddenly;
- 8) Earl died at 59 of heart failure;
- 9) Hazel died at 79 of heart attack;
- 10) Hal ?
- 11) Doris died at 68 suddenly.
